The project will be completed by the end of 2026.

Solar panels will be installed on the roof with a grid-connected inverter system.

Luxurious and spacious villa within Spain's best golf resort, La Cala Resort. Located opposite the golf course on a plot with views of the city and the sea from the second level.

Due to the plot's location, it receives sun all day, and in this area we have 325 days of clear skies a year, which also allows for good energy generation through the solar panels.
